

SAFE AND LEGAL PARKING IN OUR INDUSTRIAL AND COMMERCIAL AREAS

Council receives many complaints each year regarding vehicles parking illegally within industrial and commercial areas.

Local businesses, employees and visitors are reminded of the following road rules to ensure all vehicles are parked in a legal and safe manner.

YELLOW LINE = 'NO STOPPING'

A YELLOW EDGE LINE INDICATES NO STOPPING

NSW Road Rules 2014 - Rule 169

These lines are installed either in addition to or in place of 'No Stopping' signage at selected locations across the Penrith Local Government Area.

Council and NSW Police are responsible for enforcement of parking rules within the Penrith Local Government Area.

Council Rangers may issue penalty notices to vehicles which are illegally parked.

Illegal parking includes vehicles parked contrary to parking regulation signage, or parking on Council land (including the footpath and driveway crossovers). These penalties are issued under the provisions of the NSW Road Rules 2014.

PARKING ON FOOTPATHS, VERGES OR BLOCKING DRIVEWAYS

Obstructing a driveway even if it is to your own property, is an offence as it prohibits access for emergency services as well as visitors, staff and other people accessing industrial or commercial complexes or sites.

Parking on footpaths can damage the concrete surface and create ruts on grassed nature strips, resulting in trip hazards that may cause serious injury to pedestrians.

Parking on the nature strip is an obstruction to pedestrians and postal delivery services.
